

Thamjith Thaha

Technical Lead, Frontend Engineering – IBM Instana

Kerala, India | +91 8943269088 | jithuthaha8@gmail.com | linkedin.com/in/thamjith-thaha | github.com/Thamjith

S U M M A R Y

Technical Lead and full-stack engineer with 6+ years of experience building enterprise-grade, scalable software. Currently leading Team PLG for IBM Instana, an AI-powered observability platform serving thousands of enterprise tenants globally. Deep expertise in TypeScript, React, and distributed frontend systems. Track record of measurable outcomes: 40% faster user onboarding and platform-growth features that directly improve acquisition and retention. Hands-on engineering leader with a strong bias for clean architecture, performance, and team craft.

T E C H N I C A L S K I L L S

Languages: TypeScript, JavaScript, Java, HTML, CSS

Frameworks & Libraries: React, Spring Boot, Node.js, Electron, Redux Toolkit

Architecture: Micro Frontends, Single Page Applications, Server-Side Rendering, REST APIs, WebSockets

Databases: MySQL, PostgreSQL

Tools & Platforms: Git, Webpack, Vite, Nginx, IBM Carbon Design System, Agile, Scrum

Testing: Unit Testing, Component Testing, Accessibility (WCAG)

AI-Augmented Dev: GitHub Copilot, Cursor, Claude, ChatGPT

E X P E R I E N C E

Technical Lead – IBM Instana

Mar 2026 – Present

Kochi, India

- Leading Team PLG (Product-Led Growth) for Instana, a globally deployed AI-powered observability platform, owning initiatives that drive user acquisition, activation, and retention at enterprise scale.
- Setting architectural standards, conducting code reviews, and mentoring a cross-functional team on performance, scalability, and engineering best practices.

Senior Software Engineer – IBM Instana

Aug 2023 – Mar 2026

Kochi, India

- **Onboarding Optimization:** Re-architected the agent installation flow, reducing time-to-value by 40% for new enterprise users and directly improving post-signup activation metrics.
- **Design System Migration:** Led the full UI redesign to IBM Carbon Design System, standardizing components platform-wide and measurably reducing inbound support ticket volume.

- **Share & Invite Feature:** Drove end-to-end delivery of a tenant-level collaboration feature, enabling user-driven expansion and contributing to organic product growth.
- Stack: TypeScript, React, Java, Dropwizard, IBM Carbon Design System.

Senior Software Engineer – InApp

Mar 2022 – Aug 2023

Thiruvananthapuram, India

- **Intuitive Surgical:** Delivered features for an Electron-based surgical training platform (da Vinci robot) used by medical teams globally, via a Micro Frontend architecture.
- **LAWFT Legal SaaS:** Engineered a multi-tenant SaaS platform for law firm operations covering case records, documents, scheduling, deadlines, and accounting.
- **Real-Time UI:** Built a live React progress component connected to a Django/Celery backend via WebSocket for real-time task status tracking.
- Stack: TypeScript, React, Electron, Micro Frontends, WebSockets.

Software Engineer – Vanilla Networks

Feb 2020 – Mar 2022

Thiruvananthapuram, India

- **Logistics Platform:** Built an integrated 3PL solution for an Australian company with direct carrier integrations (TNT, UPS, FedEx, DHL, AusPost), eliminating middleware and cutting operational costs by 20%.
- **Legacy Modernization:** Migrated a server-side rendered app to a React SPA, significantly improving Google Lighthouse performance scores.
- Stack: React, JavaScript, MySQL.

PROJECTS

HangPlan | hangplan.in | github.com/Thamjith/Hangplan-frontend

Stack: React, Redux Toolkit, Spring Boot, PostgreSQL, Zod, Nginx

Full-stack social planning app for organising gatherings — built and deployed end-to-end as an independent product. Production-grade architecture: separate repos, REST API, schema validation, self-hosted.

Imacto | imacto.thamjiththaha.com | github.com/Thamjith/Imacto

Stack: React, JavaScript, Canvas API, Vite

Client-side media studio (crop, compress, convert, rotate, watermark) with zero server uploads. Privacy-first design using browser-native Canvas API for compute-intensive media processing.

EDUCATION

Bachelor of Computer Application

2016 – 2019

University of Kerala, Thiruvananthapuram
